Our software is designed to grow with your business.

Key Features

Rent a Car with Pre-Booking :

- Allow customers to book vehicles in advance for a seamless rental experience.
- Real-time vehicle availability tracking for efficient management.
- Automated rental processes to reduce administrative burdens.

Limousine Service with Pre-Booking :

- Offer customers the luxury of pre-booking limousine services.
- Ensure smooth operations with real-time updates and organized bookings.

Leasing :

- Manage short-term and long-term vehicle leases effectively.
- Track leasing contracts, payments, and vehicle conditions.
- Ideal for corporate clients and long-term rentals.

Selling Used Vehicles :

- Maximize the value of used vehicles by transitioning them to sales.
- Efficiently manage vehicle sales, monitor performance, and track the sales process.

Booking Management :

- Avoid overbooking with a synchronized booking management system.
- Modify, cancel, or update bookings easily.
- Ensure smooth customer service with seamless communication and scheduling.

Inventory Management :

- Maintain control of your fleet with a comprehensive inventory system.
- Track vehicle availability, monitor maintenance schedules, and manage the entire lifecycle of your fleet.

Reports :

- Gain valuable insights with detailed reports on revenue, bookings, payments, and maintenance.
- Make data-driven decisions to optimize your operations.
